Announcement No. EA6706/025 LT

EA's Group Emissions Reduction Targets

Energy Absolute plc is setting the emissions reduction target in line with climate science. The reduction target is corporate-level and enforces to any EA's Group companies that are under EA's operational control. The EA's group companies have conducted corporate carbon footprint with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals, ISO 14064-1.

The EA's Group Emissions Reduction Target is including but not limit to

1. Set carbon neutrality by 2040
2. Set net-zero targets, consistent to a long-Term Climate Science Target by 2050

Energy Absolute plc's carbon neutrality commitment encourages more efficient business operation that help mitigate climate change. EA commits to set long-term target to reach net-zero value chain GHG emissions in line with 1.5 °C scenarios by no later than 2050.

Effective on 28 June 2024
